Orbit Digital Services Pvt. Ltd.

Proposal in response to **MRG-RFP-2026-014**: Omnichannel Customer Service & Ticketing Platform
Submitted to: Meridian Retail Group (fictional)
Submission date: 2026-09-20 | Proposal validity: 90 days
Contact: Meera Chandra, Client Partner (meera.chandra@orbitdigital.example)

Synthetic document created for a classroom exercise. All companies, people, clients and figures are fictional.

1. Executive Summary

Meridian Retail Group operates 140 stores and an e-commerce site across India and has issued MRG-RFP-2026-014 to replace its legacy email-based support desk with a cloud omnichannel platform covering email, web chat, WhatsApp and voice callback. Key requirements are integration with the existing SAP S/4HANA order system and Salesforce loyalty CRM, support for 350 agents (peak 600 in festive season), go-live within 6 months, data residency in India, and DPDP Act 2023 compliance.

Orbit Digital brings **18 years of customer-experience delivery** and more than 40 contact-centre programmes across retail, banking and telecom. We propose **OrbitCX**, our configurable service platform, supported by a seasoned delivery team that has seen every festive-season challenge Indian retail can produce.

2. Proposed Solution

OrbitCX provides email, chat, WhatsApp and voice callback in a unified agent desktop with knowledge base, SLA management and analytics. Hosting is in an India data centre.

Integrations: OrbitCX has a flexible integration layer and has integrated with many ERP and CRM systems over the years. Integration with SAP and Salesforce will be designed during the discovery phase, depending on Meridian's landscape, and may use middleware, APIs or batch files as appropriate. Details of the integration architecture will be shared after discovery.

Scalability: the platform is used by large enterprises and will scale to Meridian's volumes.

3. Implementation Approach and Timeline

Orbit uses its **OrbitWay** delivery methodology refined over 40+ programmes.

Stage	Indicative duration
Discovery & integration design	6 weeks
Build and configuration	8 weeks
Testing and UAT	5 weeks
Rollout and stabilisation	5 weeks
Total	**24-26 weeks**

Note: timeline for integrations will be confirmed after discovery and could extend the plan. **Team:** delivery director, project manager, 2 functional consultants, 3 technical consultants, QA lead, trainer (9 FTE).

4. Commercial Proposal

Item	Basis	Amount (INR)
OrbitCX licence (350 agents)	Rs 2,100 per agent/month x 12	88,20,000
Festive burst (250 agents x 3 months)	Rs 2,100 per agent/month	15,75,000
Implementation services	Time & material estimate	65,00,000
Integration services	Estimate, to be confirmed after discovery	18,00,000
Support (business hours + P1 24x7)	Annual	15,00,000
Total Year 1 (indicative)		**2,01,95,000**

Assumptions: excludes GST and travel; implementation on time-and-material basis with +/- 15% variance; integration estimate may change after discovery; Year 2+ licence at prevailing list price.

5. Security, Compliance and Risk

- ISO/IEC 27001:2013 certified (transition to 2022 version in progress).
- Data hosted in India; encryption at rest and in transit; role-based access.
- DPDP Act 2023 compliance programme under way across all Orbit products.
- Annual penetration testing; disaster recovery site available (RTO 8 hours).

Key risk: integration scope is not yet defined; Orbit will manage this through change control.

6. Support Model, Experience and References

Support from our Chennai service centre: business hours for P2-P4, 24x7 for P1 with 30-minute response; 99.9% uptime target. Dedicated account manager.

Experience: 18 years; 40+ contact-centre programmes; 12 retail clients; 2,500+ agents currently supported on OrbitCX.

- **Dhanlaxmi Department Stores** (fictional) - 600 agents, live since 2019; reference: Head of CX.
- **Pinnacle Bank** (fictional) - 1,100 agents, live since 2021; reference: VP Service Operations.
